

# Popcorn Machine

Church events, fairs, sporting events, school carnivals, graduations, birthday parties, and family gatherings will benefit greatly from the use of this popcorn machine. Popcorn works! The delicious, buttery smell makes mouths water and is a great giveaway and draws traffic to any event. The popcorn machine has a 6 oz. stainless steel kettle for fast warm up.

## Operation:

1. There are three switches on the popper. Turn the "KETTLE HEAT", "KETTLE MOTOR" & "LIGHTS AND WARMER" switches ON.
2. For first batch only, let the kettle heat about 4 minutes.
3. Cut open the popcorn/oil pouch, squeeze the oil bar in kettle, then add the popcorn from the pouch.
4. Dump when popping is about 99% complete.
5. Repeat steps 3 & 4. (NOTE: Always pop at least 3-5 batches each time you pop for best results).
6. Final batch only! Turn the "KETTLE HEAT" switch OFF as soon as the corn starts popping rapidly or when the kettle lid starts to rise.

**WARNING: Keep "KETTLE HEAT" switch OFF when not popping.**

## Rental Policies:

- Customer is allowed 3 days of use.
- Special rental rates apply for rentals over 3 days. Please call for prices.

Delivery & pickup is available, upon request. Please call for rates.
